

Broadcast Technician

Channel Zero Inc. has an immediate career opportunity for a Broadcast Technician in Toronto. At Channel Zero, we are driven by a passion to build effective solutions. With change being a constant, the ideal candidate has the ability to adapt and change direction. This is a full-time, junior level position. Shifts are generally days but may include occasional evenings, nights and on-call.

Key Responsibilities:

- Set up and troubleshoot satellite transmissions, multiplexed signals and automation system operations for multiple broadcast streams and High-Definition channels.
- Effectively communicate with manager, master control operators, vendors, clients and management on all issues affecting the transmission of channels.
- Troubleshoot and maintain various Broadcast servers, computer servers, and Non-linear editing systems used in Digital media workflows.
- Troubleshoot and repair of traditional broadcast equipment such as, video master control switchers, routing switchers, and supporting infrastructure.
- Assist in the installation and commissioning of new facilities and/or addition or modification of existing facilities.
- Keep manager informed on all repairs and maintenance issues or other matters affecting operations.
- Update and maintain drawings and create new ones for assigned projects.
- Perform routine and preventive maintenance of computer systems and networks.
- Provide support of master control operations.

Key qualifications:

- Broadcast Engineering Diploma/Degree or relevant experience in a broadcast engineering capacity.
- Ability to work under pressure, make sound decisions and find effective solutions.
- Competent technical ability to perform basic troubleshooting of both standard and high definition broadcast video/audio signals, with sound understanding of a variety of automation systems and video path flow.
- Ability to work with multiple platforms (Linux, Windows 64-bit systems and Mac OSX) troubleshoot issues and test updates.
- Excellent multitasking skills and great attention to detail.
- Excellent analytical skills and ability to problem solve.
- Willing and enthusiastic about learning new technologies.
- Must work well in team environment at the same time work well under minimal supervision.

Application Deadline: Open until position is filled
